Important COVID details:

- To attend in person, you must be fully vaccinated and current with your boosters.
 - In order to have everyone feel comfortable not wearing a mask or needing to social distance, we are asking everyone to test daily.
 - "The virus most often spreads through people who have symptoms. But it is possible to pass it on without showing any signs. Some people who don't know they've been infected can give it to others. This is called asymptomatic spread. You can also pass it on before you notice any signs of infection, called presymptomatic spread." – WEBMD
 - With everyone traveling, we need to be responsible for each other's health, safety, and peace of mind.

- Before you come, take a rapid test. Please bring three more with you.
 - Do a rapid test before the cocktail party and each AM before coming to the session.
 - Based on our demographics, we are in the high-risk category. We need to care for each other.
 - We don't need to have a super spreader event.
